Dear Student

## 1. INTRODUCTION

Unisa is a comprehensive open distance e-learning (CODeL) higher education institution. Our comprehensive curricula encapsulate a range of offerings, from strictly vocational to strictly academic certificates, diplomas and degrees. Unisa's openness and its distance e-learning character result in many students who may not previously have had an opportunity to enrol in higher education registering at the University. Our CODeL character implies that our programmes are carefully planned and structured to ensure success for students, ranging from the under-prepared but with potential to those who are sufficiently prepared.

Multiple modes of delivery are involved in teaching and learning in a CODeL context, ranging from blended to fully online learning. As a default position, all postgraduate programmes are offered fully online with no printed study materials. Undergraduate programmes are offered using a blended mode of delivery where printed study materials are augmented with online teaching and learning via myUnisa, our learning management system. In some instances, undergraduate programmes are offered fully online as well.

Furthermore, our programmes are aligned with the vision, mission and values of the University. Unisa's commitment to serving humanity and shaping futures – combined with a clear appreciation of our location on the African continent – means that Unisa's graduates have distinctive graduate qualities, which include

- being independent, resilient, responsible and caring citizens able to fulfil and serve in multiple roles in their immediate and future local, national and global communities
- having a critical understanding of their location on the African continent and taking account of its histories, challenges and potential in relation to globally diverse contexts
- the ability to critically analyse and evaluate the credibility and usefulness of information and data from multiple sources in a globalised world with ever-increasing information and data flows and competing worldviews
- knowing how to apply their discipline-specific knowledges competently, ethically and creatively to solve real-life problems
- an awareness of their own learning and developmental needs and future potential

This is a fully online module. It is, therefore, only available on myUnisa.

We encourage you to log on to the module site on myUnisa regularly (at least twice a week). The module website code written out in full, INF1520-26-Y.

Because this is a fully online module, you will need to use myUnisa to study and complete the prescribed learning activities. Visit the website for INF1520 on myUnisa frequently. The website for your module is INF1520-26-Y.

We wish you every success with your studies!

## **2. MODULE OVERVIEW**

### **2.1 Purpose**

Students who complete this module successfully will have a comprehensive overview of the principles and concepts of human–computer interaction (HCI). Students become familiar with trends in the development of user-centred computer applications and the types of interfaces and interaction styles. They gain an understanding of various attributes of intended users that may influence computer use, such as their cognitive, perceptual, cultural and social characteristics. Students will be able to describe and compare different usability evaluation methods. They will be qualified to serve as novice members of a design team creating interactive technological systems.

Students who complete this module successfully will have:

- an awareness of user-centred design;
- been introduced to some of the social, security and safety aspects of computing and of using computers as tools;
- studied various interaction devices and aspects relating to the design and evaluation of interactive systems.

This module is delivered through myUnisa and the internet and requires peer group interaction. Community engagement is also required for some of the activities. Your lecturers will interact with you on myUnisa and via e-mail.

### **2.2 Outcomes**

For this module, you need to master several outcomes. Once you have completed the module, you should be able to:

- define human–computer interaction
- describe the process of designing usable systems by focusing on the intended user

- describe the physiological, psychological, social and cognitive characteristics of users that may influence their interaction with computers
  - determine what users want from a system
  - describe, compare and contrast the different interaction styles in HCI
- describe and analyse the main methods of interface evaluation

### 3. CURRICULUM TRANSFORMATION

Unisa has implemented a transformation charter that places curriculum transformation high on the teaching and learning agenda. Curriculum transformation includes student-centred scholarship, the pedagogical renewal of teaching and assessment practices, the scholarship of teaching and learning, and the infusion of African epistemologies and philosophies. All of these are being phased in at both programme and module levels. As a result of this, you will notice a marked change in the teaching and learning strategy implemented by Unisa, together with the way in which the content is conceptualised in your modules. We encourage you to embrace these changes during your studies at Unisa, responsively and within the framework of transformation.

### 4. LECTURER(S) AND CONTACT DETAILS

#### 4.1 Lecturer(s)

The primary lecturer for this module is Prof Lucas Khoza:

**Department: Information Systems**

**E-mail:** [khozalt@unisa.ac.za](mailto:khozalt@unisa.ac.za)

#### 4.2 Department

You can contact the Department of Information Systems as follows:

Telephone number: 011 471 2816

E-mail: [computing@unisa.ac.za](mailto:computing@unisa.ac.za)

#### 4.3 University

Contact addresses of the various administrative departments appear on the Unisa website:

<http://www.unisa.ac.za/sites/corporate/default/Contact-us/Student-enquiries>.

**Please include your student number in all correspondence.**

## **5. RESOURCES**

### **5.1 Prescribed book(s)**

There are no prescribed books for this module. Tutorial Letter 102 serves as both your textbook and your study guide.

### **5.2 Recommended book(s)**

There are no recommended books for this module.

### **5.3 E-reserves**

E-reserves can be downloaded from the library webpage. More information is available at: <http://oasis.unisa.ac.za/search/r>

### **5.4 Library services and resources**

The Unisa Library offers a range of information services and resources and has made numerous library guides available at <http://libguides.unisa.ac.za>

#### **Recommended guides**

- For brief information on the library, go to <https://www.unisa.ac.za/library/libatglance>
- For more detailed library information, go to <http://www.unisa.ac.za/sites/corporate/default/Library>
- For frequently asked questions, go to <https://www.unisa.ac.za/sites/corporate/default/Library/Frequently-Asked-Questions>
- For research support and services such as the Personal Librarian service and the literature search request (on your research topic) service, offered by the Information Search Librarian, go to <http://www.unisa.ac.za/sites/corporate/default/Library/Library-services/Research-support>
- For library training for undergraduate students, go to <https://www.unisa.ac.za/sites/corporate/default/Library/Library-services/Training>

- For lending services, go to <https://www.unisa.ac.za/sites/corporate/default/Library/Library-services/Lending-services>
- For services for postgraduate students, go to <https://www.unisa.ac.za/sites/corporate/default/Library/Services-for-Postgraduates>
- For support and services for students with disabilities, go to <https://www.unisa.ac.za/sites/corporate/default/Library/Services-for-students-with-special-needs>
- For library technology support, go to <https://libguides.unisa.ac.za/techsupport>
- For information on finding and using library resources and tools, go to [http://libguides.unisa.ac.za/Research\\_skills](http://libguides.unisa.ac.za/Research_skills)
- For an A–Z list of library databases, go to <https://libguides.unisa.ac.za/az.php>

### **Important contact information**

- Technical problems encountered in accessing library online services: [Lib-help@unisa.ac.za](mailto:Lib-help@unisa.ac.za)
- General library-related queries: [Library-enquiries@unisa.ac.za](mailto:Library-enquiries@unisa.ac.za)
- Queries related to library fines and payments: [Library-fines@unisa.ac.za](mailto:Library-fines@unisa.ac.za)
- Interlibrary loan service for postgraduate students: [libr-ill@unisa.ac.za](mailto:libr-ill@unisa.ac.za)
- Literature Search Service: [Lib-search@unisa.ac.za](mailto:Lib-search@unisa.ac.za)
- Services and resources available to clients living with disabilities: [lib-disability@unisa.ac.za](mailto:lib-disability@unisa.ac.za)
- Library book requests from, and book deliveries to Correctional Services: [lib-corrections@unisa.ac.za](mailto:lib-corrections@unisa.ac.za)
- Social media channels: Facebook: Unisa Library and X (Twitter): @UnisaLibrary

To view the Library orientation video – please click here : [📄 Unisa Library and Information Services Video 1 1 \(2\).mp4](#)

## **6. STUDENT SUPPORT SERVICES**

### **6.1 Study @ Unisa publication and myModules**

The *Study @ Unisa* online publication is available on myUnisa at [www.unisa.ac.za/brochures/studies](http://www.unisa.ac.za/brochures/studies)

It contains important information and guidelines for successful studies through Unisa.

If you need assistance with the myModules system, you are welcome to use the following contact details:

- Toll-free landline: 0800 00 1870 (select option 07 for myModules)
- E-mail: [mymodule22@unisa.ac.za](mailto:mymodule22@unisa.ac.za) or [myUnisaHelp@unisa.ac.za](mailto:myUnisaHelp@unisa.ac.za)

You can access and view short videos on topics such as how to view your calendar, how to access module content, how to view announcements for modules, how to submit assessments and how to participate in forum activities by visiting <https://dtls-ga.unisa.ac.za/course/view.php?id=32130>

Registered Unisa students receive a free myLife e-mail account. Important information, notices and updates are sent exclusively to this account.

Please claim your e-mail account immediately after registering at Unisa by following this link: [myLifeHelp@unisa.ac.za](mailto:myLifeHelp@unisa.ac.za). Note that it can take up to 24 hours for your account to be activated after you have claimed it.

Your myLife account is the **only** e-mail account recognised by Unisa for official correspondence between you and the University and it will remain your official primary e-mail address on record at Unisa.

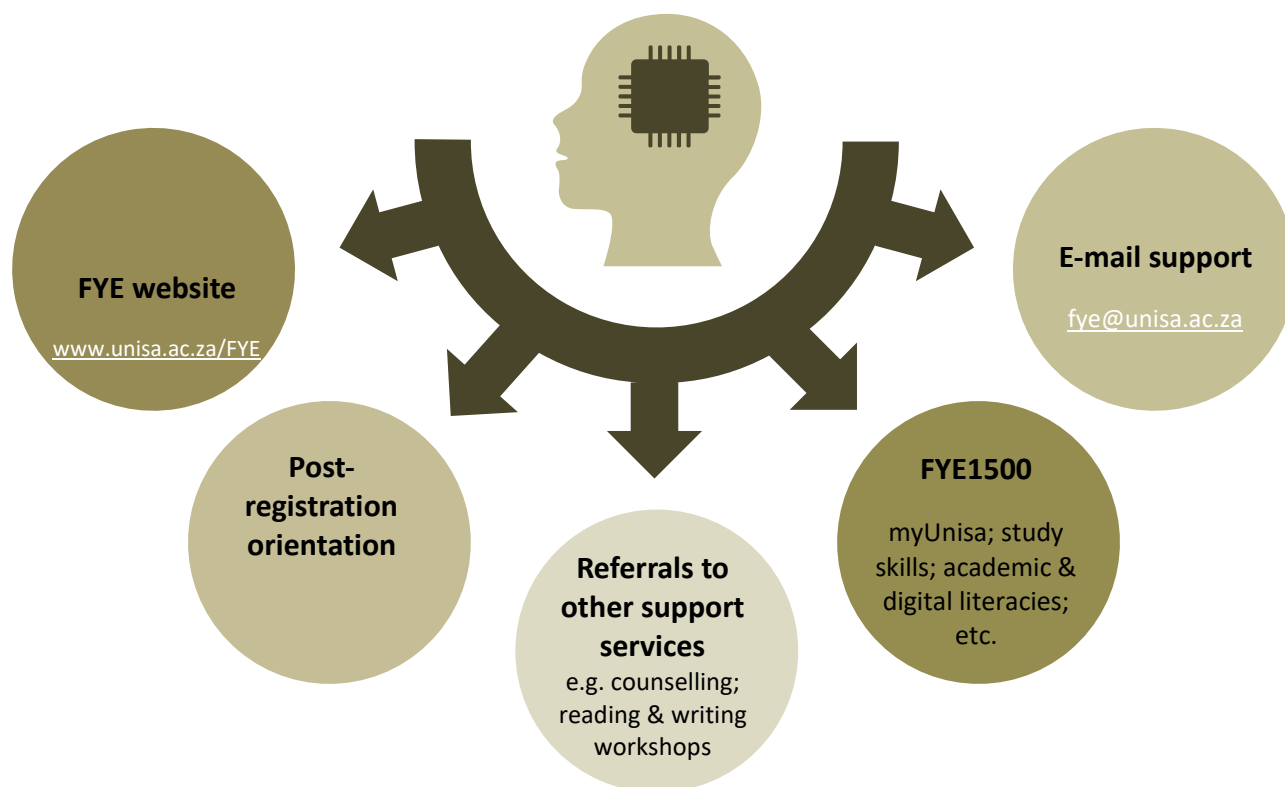

You remain responsible for the management of this e-mail account.

## 6.2 The Unisa First-Year Experience Programme

Many students find the transition from school education to tertiary education stressful and this is often true for students enrolling at Unisa for the first time. Unisa is a dedicated open distance and e-learning institution and is very different from face-to-face/contact institutions. It is a mega university, and all its programmes are offered through either blended learning or fully online learning. For these reasons, we offer first-time students additional/extended support to help them navigate the Unisa teaching and learning journey seamlessly and with little difficulty and few barriers.

Unisa's First-Year Experience (FYE) Programme has been specially designed to provide you with prompt and helpful information about the services that the institution offers.

The following FYE services are currently available:

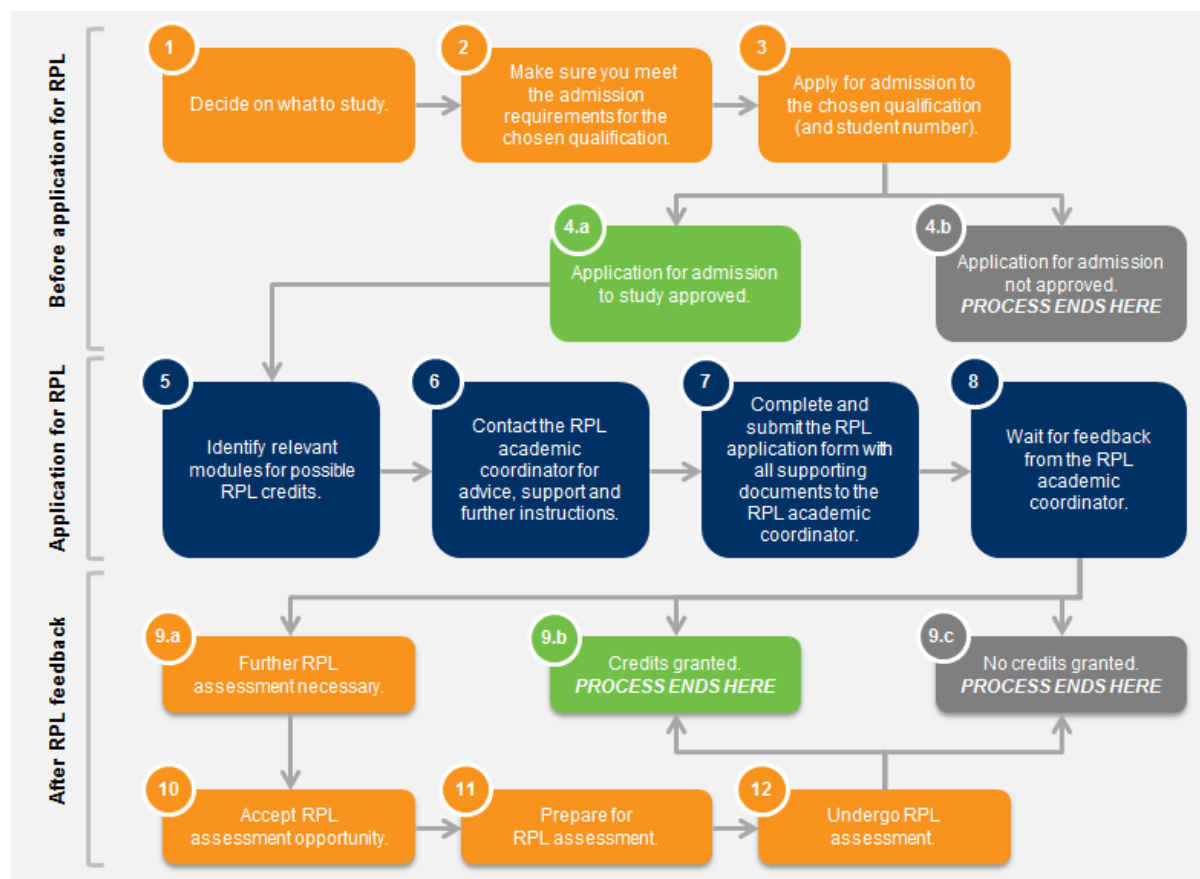

To ensure that you don't miss out on important academic and support communication from the SRU, please check your myLife inbox regularly.

### 6.3 Using Recognition of Prior Learning (RPL) to apply for module credit within a qualification.

Now that you are a registered student, you are advised to familiarise yourself with the learning outcomes of the module or modules you have chosen. If you have been exposed to those learning outcomes for three years or more – either through work experience or other involvement – you can apply to be exempted from completing assignments and writing examinations. As part of your application for this exemption, you will be required to compile a portfolio of evidence substantiating how your experience is equivalent to the learning outcomes. The diagram below shows the steps involved in obtaining recognition of prior learning (RPL) for module credit. For more information

on the process, RPL fees, and the contact details of your college RPL coordinator, visit the Unisa website: [www.unisa.ac.za/rpl](http://www.unisa.ac.za/rpl)

## **6.4 Compulsory Completion of the Academic Integrity Course**

**Students registered for NQF 5 – 8 programmes are required to complete the Academic Integrity Course annually.**

Academic integrity represents our commitment to and demonstration of honest and ethical behaviour in academic settings. Academic integrity is a foundational principle at Unisa, underpinning the quality and credibility of our qualifications. At its core, the Academic Integrity Course is designed to advance values such as discipline, fairness, honesty and commitment, which are important to your success as a student and your future as a professional.

The course can be accessed at: <https://mooc.unisa.ac.za/>. Use your myLife-credentials to log in.

### **For new students**

If you are a new student enrolling for the first time in 2026, you must complete the full Academic Integrity Course as part of your orientation. This course is designed to instil academic values and equip you with the necessary skills required to uphold integrity throughout your academic journey.

The course comprises five comprehensive study units:

1. Unisa's values and mission on academic integrity principles
2. Defining academic integrity in an open distance learning (ODL) environment
3. Basic skills in academic writing
4. Ethical usage of artificial intelligence
5. Unisa's processes in identifying academic misconduct and detection tools

### **For returning students**

Those of you who completed the Academic Integrity Course in 2025 are required to complete the refresher version of the course in 2026. This course serves to reinforce the principles and practices of academic integrity. While it is a shortened version of your previously completed Academic Integrity Course, it remains compulsory and must be completed within the specified period.

The refresher course aims to:

- Reinforce understanding of academic integrity principles
- Update you on any changes in policies or practices
- Ensure continued commitment to ethical academic conduct

For both new and returning students, it is important to complete the respective versions of the Academic Integrity Course within the specified periods. Unisa remains steadfast in its commitment to fostering a culture of honesty, fairness and responsibility. Non-compliance may lead to academic consequences as outlined in Unisa's Student Rules. For support, contact [mymodule22@unisa.ac.za](mailto:mymodule22@unisa.ac.za)

## 7. STUDY PLAN

Week	Date	Activities
1	1st week March	Work on lesson 1 and plan submission of assignments.
2	2nd week March	Start with lesson 2 and prepare for Assignment 01.
3	3rd week March	Do self-assessment. <b>(Do not submit.)</b> Start working on lesson 2. Start working on Assignment 02.
4	1st week April	Work on Assignment 02.
5	2nd week April	Do self-assessment. <b>(Do not submit.)</b>
6	3rd week April	Start with lesson 3.
7	4th week April	Do self-assessment activities.
8	1st week May	Start with lesson 3. Start with Assignment 03.
9	2nd week May	Work on Assignment 03.
10	3rd week May	Start with lesson 4.
1	2nd week July	Work on lesson 4.
2	3rd week July	Start preparing for Assignment 04.
3	4th week July	Do self-assessment. <b>(Do not submit.)</b>
4	1st week August	Start with lesson 5.

Week	Date	Activities
5	2nd week August	Review.
6	3rd week August	Start revising lessons 1 and 2.
7	4th week August	Revise lesson 3.
8	1st week September	Revise lesson 4.
9	2nd week September	Revise lesson 5.

## 8. HOW TO STUDY ONLINE

Studying fully online modules differs completely from studying some of your other modules at Unisa.

- **All your study material and learning activities for online modules are designed to be delivered online on myUnisa.**
- **All your assignments must be submitted online.** This means that you will do all your activities and submit all your assignments on myUnisa. In other words, you may **not** post your assignments to Unisa using the South African Post Office.
- **All communication between you and the university happens online.** Lecturers will communicate with you via e-mail and SMS, and use the **Announcements, Discussion Forums** and **Questions and Answers** tools. You can also use all of these platforms to ask questions and contact your lecturers.

## 9. ASSESSMENT

### 9.1 Assessment criteria

	Specific outcomes	Assessment criteria
1	Define human–computer interaction.	<p>HCI can be defined clearly and correctly.</p> <p>The multidisciplinary nature of HCI can be explained correctly and the different disciplines involved can be named and identified.</p>
2	Describe the process of designing usable systems by focusing on the intended user.	<p>The differences between users and designers can be explained in a way that shows an understanding of the fact that designers are not typical users.</p> <p>The concepts of affordance, visibility, constraints, mapping and feedback can be explained and demonstrated on the basis of examples.</p> <p>The stages of human action can be described and applied to analyse a given HCI scenario.</p> <p>The concept of evolutionary design can be described and illustrated on the basis of examples.</p> <p>The complexity of the design process can be explained and approaches to simplify it can be suggested.</p> <p>Common reasons why designers go astray can be described and explained on the basis of real-life examples.</p>
3	Describe the physiological, psychological, social, movement, expectation and cognitive characteristics of users that may influence their interaction with computers.	<p>Human perception can be described in a way that explains how it may influence HCI, especially in the case of young children and the elderly.</p> <p>The working of human memory can be explained in a way that distinguishes between long-term and short-term memory, and that clarifies its relationship with HCI.</p> <p>The physical aspects that influence HCI can be described in a way that shows how they affect users' interaction with computers.</p> <p>The effect of personality on users' interaction with computers can be described in a way that explains how design should be adapted accordingly.</p> <p>The effect of cultural characteristics on users' interaction with computers can be described in a way that illustrates why designers should be sensitive to cultural differences among users.</p> <p>The different kinds of errors that humans typically make can be described and illustrated on the basis of examples.</p>
4	Describe, compare and contrast the different interaction styles in HCI.	<p>The four different dialogue styles can be described in a way that makes it easy to identify the circumstances in which they will be suitable, with an elaboration of interaction styles.</p> <p>The different dialogue styles can be compared in terms of appearance, behaviour, design aims and design challenges.</p>

5	Describe the main methods of interface evaluation	<p>Interface evaluation can be described in a way that shows that the student understands why it should be done and how it relates to design and development, for example, research design and user satisfaction.</p> <p>The main characteristics of the major evaluation techniques and the differences between them can be outlined and identified.</p> <p>The differences between the major evaluation techniques, such as empirical testing and iterative design, are described in a way that shows that the student knows when each method will be suitable.</p>
---	---	---

## 9.2 Assessment plan

- To complete this module, you will be required to submit four (4) assignments.
- All information about when and where to submit your assignments will be made available to you via the myModules site for your module.
- Due dates for assignments, as well as the assignments themselves, will be available on the myModules site for this module.
- To gain admission to the examination, you will be required to submit at least three (3) assignment/s.
- To gain admission to the examination, you will need to obtain a year mark average of 40% for the assignments.
- The assignment weighting for the module is 20%.
- You will receive examination information via the myModules sites. Please watch out for announcements on how examinations for the modules for which you are registered will be conducted.
- The examination will count 80% towards the final module mark.

Assessment number	Method of assessment	Outcomes covered in assessment	Weight contribution of assessment
01	Online assessment MCQ	Lessons 1 and 2	20%
02	Online assessment MCQ	Lessons 3 and 4	20%
03	Online assessment MCQ	Lesson 5	20%
04	Short and long questions - written assessment	All lessons	40%

### 9.3 Assessment/assignment due dates

- No assessment/assignment **due dates** are included in this tutorial letter.
- Assessment/assignment due dates will be made available to you on the myUnisa landing page for this module. We envisage that the due dates will be available to you on registration.
- Please start working on your assessments/assignments as soon as you register for the module.
- Log on to the myUnisa site for this module to obtain more information on the due dates for the submission of the assessments/assignments

### 9.4 Submission of assessments/assignments

- Unisa, as a CODEL institution, is moving towards becoming an online institution. You will see, therefore, that all your study material, assessments and engagements with your lecturer and fellow students will take place online. To facilitate this, we use myUnisa as our virtual campus.
- The myUnisa virtual campus offers you access to the **myModules site**, where learning material is available online and where assessments should be completed. Together, myUnisa and myModules form an online system that is used to administer, document and deliver educational material to you and to support engagement between you and Unisa's academics.
- The myUnisa platform can be accessed via <https://my.unisa.ac.za>. Click on the myModules 2026 button to access the online sites for the modules that you are registered for.
- The University undertakes to communicate clearly and as frequently as is necessary to ensure that you get the most out of using myUnisa. Please access the Announcements on your myModules site regularly, as this is where we will post important information.
- When you access your myModules site for the module/s you are registered for, you will see a welcome message posted by your lecturer. Below the welcome message you will see the assessment shells for the assessments that you need to complete. Some assessments may be multiple choice, some may be tests or written assessments/assignments, others may be forum discussions and so on. All assessments must be completed on the assessment shells available on the respective module platforms.

- To complete quiz assessments, please log on to the module site where you need to complete the assessment. Click on the relevant assessment shell (Assessment 1, Assessment 2, etc.). There will be a date recorded there telling you when the assessment will open for you. When the assessment is open, access the quiz online and complete it within the time available to you. Quiz assessment questions are not included in this tutorial letter (Tutorial Letter 101) and are made available online only. You must therefore access and complete the quiz online where it has been created.
- It is not advisable to use a cellphone to complete quizzes. Please use a desktop computer, tablet or laptop for this task. Students who use cellphones find it difficult to navigate the **Online Assessment** tool on the small screen and often struggle to navigate between questions and successfully complete the quizzes. In addition, cellphones are more vulnerable to dropped internet connections than other devices. **If at all possible, please do not use a cellphone for this type of assessment.**
- For written assessments/assignments, please note the due date by which your work must be submitted. Ensure that you follow the guidelines given to complete the assessment/assignment. Click on the submission button on the relevant assessment shell on myModules. You will then be able to upload your written assessment to the myModules site for the modules that you are registered for. Before you finalise the upload, double-check that you have selected the correct file for uploading. Remember, no marks can be awarded for incorrectly submitted assessments/assignments.

### ***Types of assignments and descriptions***

All assignments are defined as either optional, mandatory, compulsory, or elective.

- **Elective assignments**
  - If you do not submit this assignment, you get no mark for it.
  - Only the best results of the required submissions will count towards your year mark.
- **Mandatory assignments**
  - The mark for this assignment contributes to the year mark.
  - If you do not submit a mandatory assignment, no mark is awarded and the year mark is calculated accordingly. You will therefore forfeit the marks attached to this assignment when the final mark for the module is calculated.

- **Compulsory assignments**

- If you do not submit a compulsory assignment, the result on your academic record will be *absent*.

- **Optional assignments**

- You are encouraged to do optional assignments to benefit your learning.

## **9.5 The assessments/assignments**

As indicated in section 9.2, you need to complete four (4) assessments/assignments for this module. Details of the tasks set will appear on the assessments/assignments themselves. We have not included the assignment **due dates** in this tutorial letter. You will find the assignment due dates on the myUnisa landing page for this module. We envisage that the due dates will be available to you when you register. Please start working on your assessments as soon as you register for the module.

There is a written assignment that can be found in TUT104 which will be upload on myModules under more resources.

## **9.6 Other assessment methods**

There will be three MCQ assessments and one written assessment.

## **9.7 The examination**

Examination information and details on the format of the examination will be made available to you online via the myUnisa site. Look out for information from your lecturer and e-tutors (where relevant), as well as for communication from the University.

## **9.8 Invigilation/proctoring**

Since 2020, Unisa has been conducting all its assessments online. Given the stringent requirements imposed by professional bodies, as well as increased solicitation of Unisa's students by third parties to unlawfully assist them with the completion of assignments and examinations, the University is obliged to assure the integrity of its assessment by using various proctoring tools: Turnitin, Moodle Proctoring, The Invigilator app and IRIS. These tools authenticate your identity and flag suspicious behaviour to assure the credibility of your responses during assessments. The description below is for your benefit as you may encounter any or all of these in your registered modules:

**Turnitin** is plagiarism software that facilitates checks for originality in your submissions against internal and external sources. Turnitin assists in identifying academic fraud and ghostwriting. You are expected to submit **typed** responses when using the Turnitin software.

The **Moodle Proctoring** tool is facial recognition software that authenticates your identity during your quiz assessments. This tool requires access to your **mobile or laptop camera**. You must ensure that your camera is activated in your browser settings prior to starting your assessments.

**The Invigilator** is a mobile application-based service that verifies the identity of an assessment participant. It detects student dishonesty-by-proxy and ensures that the assessment participant is the student registered for the module concerned. This invigilation tool requires you to download the app from the Google Play Store (Android devices), the Huawei AppGallery (Huawei devices) or the Apple App Store (Apple devices) on your **camera-enabled** mobile device prior to starting your assessment.

**IRIS Invigilation** software verifies the identity of a student during assessment and provides for both manual and automated facial verification. It can record and review your assessment session and it flags suspicious behaviour for review by an academic administrator. IRIS software requires installation on your **webcam-enabled laptop device**.

Students who are identified and flagged for suspicious or dishonest behaviour arising from the invigilation and proctoring reports will be referred to the disciplinary office for formal proceedings.

**Please note:**

Refer to your module assessment information on the myModules sites to determine which proctoring or invigilation tool will be used for your formative and summative assessments. Please note that assessment 4 will use the IRIS Proctoring tool.

## **10. ACADEMIC DISHONESTY**

### **10.1 Plagiarism**

Plagiarism is the act of taking the words, ideas and thoughts of others and presenting them as your own. It is a form of theft. Plagiarism includes the following forms of academic dishonesty:

- copying and pasting from any source without acknowledging that source
- not including references, or deliberately inserting incorrect bibliographic information
- paraphrasing without acknowledging the source of the information

## 10.2 Cheating

Cheating includes, but is not limited to, the following:

- completing assessments on behalf of another student, copying the work of another student during an assessment, or allowing another student to copy your work
- using social media (e.g. WhatsApp, Telegram) or other platforms to disseminate assessment information
- submitting corrupt or irrelevant files
- buying completed answers from so-called tutors or internet sites (contract cheating)

For more information about plagiarism, follow the link below:

<https://www.unisa.ac.za/sites/myunisa/default/Study-@-Unisa/Student-values-and-rules>

## 11. STUDENTS LIVING WITH DISABILITIES

The Advocacy and Resource Centre for Students with Disabilities (ARCSWiD) provides an opportunity for staff to interact with first-time and returning students with disabilities.

If you are a student with a disability and would like additional support, or if you need additional time for assignments/assessments, contact Prof Lucas Khoza at [khozalt@unisa.ac.za](mailto:khozalt@unisa.ac.za) to discuss the assistance that you need.

## 12. IN CLOSING

Do not hesitate to contact the lecturer if you are experiencing problems with the content of this tutorial letter or with any academic aspect of the module.

Wishing you a fascinating and satisfying journey through the learning material, and trust that you will complete the module successfully.

Enjoy the journey!

Prof KL Khoza

Primary Lecturer for INF1520

School of Computing

Department of Information Systems
