Hello from the pygame community. https://www.pygame.org/contribute.html

Followed by this screen where the app is live and you can play the game:

7. You can copy the executable file(s) (.exe) from the Downloads folder (right-click on the file name and choose copy)
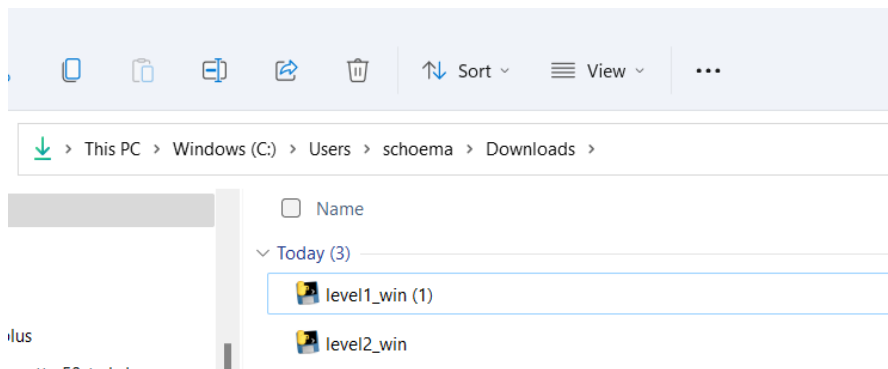

and save it on your laptop (paste in a folder for AutoThinking). If you right-click here on the file name, and choose "Show more options", the drop-down menu will have an option for "Create a shortcut". You can copy and paste the shortcut on your Desktop for easy access.
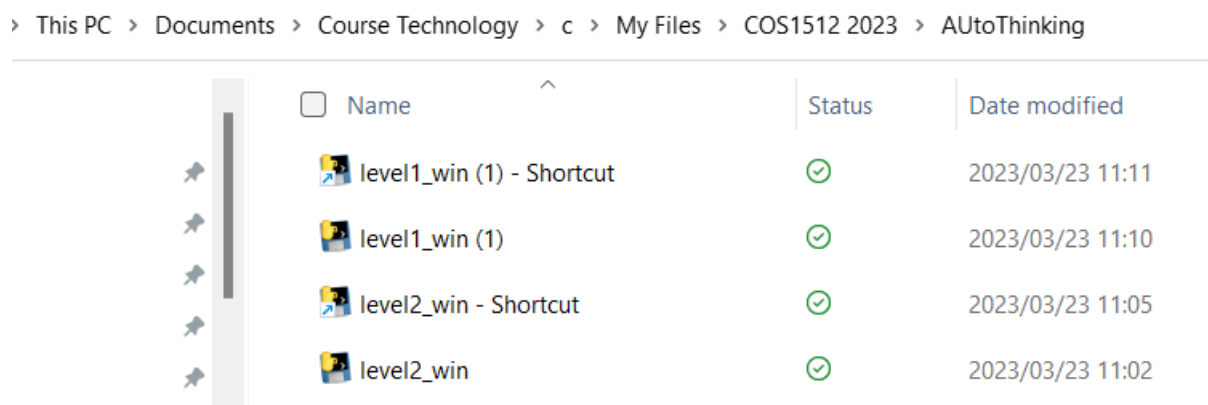

8. If you right-click here on the file name, and choose "Show more options", the drop-down menu will have an option for Create a shortcut. You can copy and paste the shortcut on your Desktop for easy access.

9. To download level 3 of AutoThinking, you can use this link
https://drive.google.com/drive/folders/19r3eZSb-cject0ofZtvHaETpkecxbXSw
Please note that if you are using Windows, when you double-click on the .exe file to play after downloading, first select "More info" and then "Run anyway".

Also, you just need to enter your information (ID=1,2,3,4; Name=nickname; gender; country, and age) and play. The first time you can enter 1 as your ID, the second time 2, etc.
